### São Paulo IBX® Data Center

### Equinix São Paulo Data Centers

Equinix is the world’s digital infrastructure company. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our São Paulo data centers offer the only facilities in Brazil with space for large-scale colocation and are home to 1,170+ companies. Customers can choose from a broad range of network services from 305+ network service providers and can interconnect directly to customers and partners in their digital supply chain. The Equinix metro São Paulo International Business Exchange™ (IBX) data centers consist of four buildings with approximately 244,500 square feet (22,700+ square meters) of colocation space.

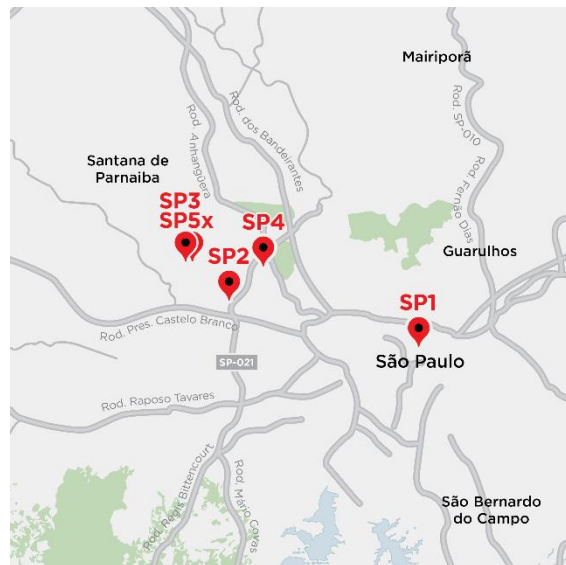

Our São Paulo data centers feature a dense concentration of financial services firms, cloud service providers, digital content companies and social media platforms. Customers can also interconnect with companies colocated in Equinix’s Rio de Janeiro facilities.

#### São Paulo Data Centers Benefits

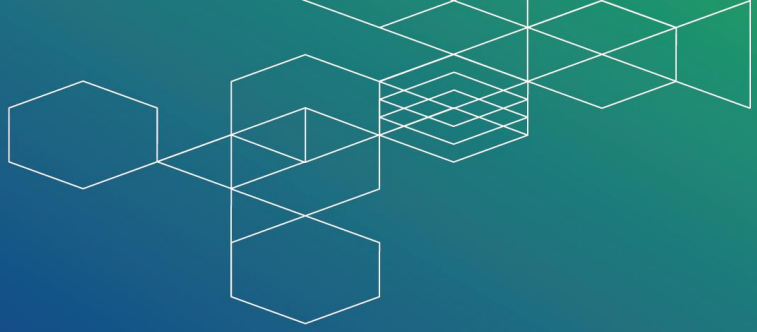

- Leverage the world’s leading carrier-neutral provider and the seven interconnected sites in Brazil
- Access to multiple cloud providers and multiple networks
- Ability to interconnect directly with companies colocating in Equinix’s Rio de Janeiro facilities
- Potential for big data companies to bring analytics to the financial customer base.
- Connections to the IX.br traffic exchange, allowing content delivery networks to sell content over the exchange
- Network and interconnection capabilities help with latency and jitter, which increases performance and reliability
